PROFESSIONAL SUMMARY

Recent Computer Science graduate with hands-on experience in full-stack development and cloud-native applications. Proficient in Python, Java, and AWS services, eager to apply strong foundational knowledge and a passion for automation to contribute to core platform infrastructure at BetterComp.

EDUCATION

University of Washington
Bachelor's, Computer Science

September 2021 - March 2025

PROJECTS & OUTSIDE EXPERIENCE

Image Processing Pipeline: Java vs. Python on AWS Lambda

November 2024 - November 2024

Backend Developer (Group Project)

- Developed serverless REST APIs using Python and AWS Lambda, integrating with S3 for real-time image processing, demonstrating an understanding of core AWS services.
- Benchmarked and optimized performance across Python implementations and monitored performance metrics with CloudWatch, showcasing a troubleshooting and monitoring mindset.

PROFESSIONAL EXPERIENCE

Target

Puyallup, WA, USA

Inbound Expert

September 2025 - Present

- Applied time management and problem-solving to manage logistics in a fast-paced retail environment with shifting priorities.
- Collaborated effectively with team members to meet daily operational targets and maintain an organized working environment.

JMG Excavating

Puyallup, WA, USA

Bookkeeper

February 2022 - December 2023

- Maintained accurate financial data and records, demonstrating strong attention to detail and organizational skills.
- Streamlined documentation processes and improved data workflows to support business operations.

SKILLS

Platform & DevOps: Docker, AWS (Lambda, S3, Elastic Beanstalk), Git, GitLab CI/CD, Google Cloud Platform, Agile.

Languages: Python, Java, JavaScript, Kotlin.

Frameworks: React.js, Node.js, Express.js, Next.js, Spring Boot.

Databases: PostgreSQL.

Other: HTML/CSS.
